## And What Have You

By BOB CRAIG

The football season will come to an end this week for Hamlin as the Freshmen will host Stamford Thursday and the Pipers will close out their season here with Merkel. As with every year, we hate to see it come to a close.

We hope that Hamlin has a good turn out of fans for this final game Friday evening as the football boys are deserving of our support in spite of their record. For their record in no way reveals the amount of effort put forth by these kids week after week since back in August.

For their sake we hope that they can end the season on a happy note with a victory over Merkel. This wish is especially true for the seniors who will not have a chance to say "just wait until next year."

We have seen teams with a lot more talent in years past but never a team that has tried any harder and to us this is what football is really all about.

We also hope that the Freshmen can come back from their 2-0 defeat by Sweetwater last week and close out their season on a good note when they host Stamford. These kids have had a real good year with losses only to the Rochester varsity and to Class AAA Sweetwater. This in spite of losing one of their number to the Piper varsity, David Willis.

Another bright spot for the sports future of Hamlin was the showing made this year by the two Junior High teams. The eighth grade won seven and lost only one, while the seventh grade won three, tied one and lost one.

Just in case you don't realize that Christmas is nearly here you have only eight days left to mail packages to servicemen overseas on "Space Available Mail" or SAM. You have an extra seven days if you use "Parcel Airlift" or PAL.

The following six tips on Christmas mailing have been prepared by the Post Office:

1. For servicemen overseas "SAM" (Space Available Mail) Christmas parcels can be sent until Nov. 20 for only the small domestic parcel post charge involved from Hamlin to East or West Coast points of embarkation for military mail. Parcels up to 5 pounds and 60 inches in combined length and girth are accepted at this low rate.

2. Larger parcels (up to 30 pounds with the same length and girth limitations) can be sent as "PAL" (Parcel Airlift) mail, provided they are mailed by Nov. 27. The charge is only \$1 per parcel, plus the regular domestic parcel post postage—much less than charges that would apply later if straight airmail service must be provided.

3. For all packaging, invest in good quality, sturdy wrapping materials. This small investment can help insure undamaged delivery of valuable gifts and prevent delays which might result if rewrapping were required in transit.

4. Insure parcels realistically to cover full value but do not over-insure. A \$10 gift, for example, can bring only \$10 compensation, if lost, even if "insured" for \$100.

5. Get plenty of stamps on your first trip to the Post Office to avoid the time and expense of additional trips.

6. Use ZIP Code as a tool for economy in mailing. When it is used consistently on parcels and cards, ZIP Code helps prevent errors in delivery and expedites handling. If only a few Christmas cards go astray, an investment of several dollars may be lost, for example.

The key to efficient Christmas mailing is to mail early and carefully. Clear addressing, with the ZIP Codes, proper packaging and early depositing can prevent most problems and provide the greatest value for money spent for postage.

## Pipers to Close Out Season With Merkel

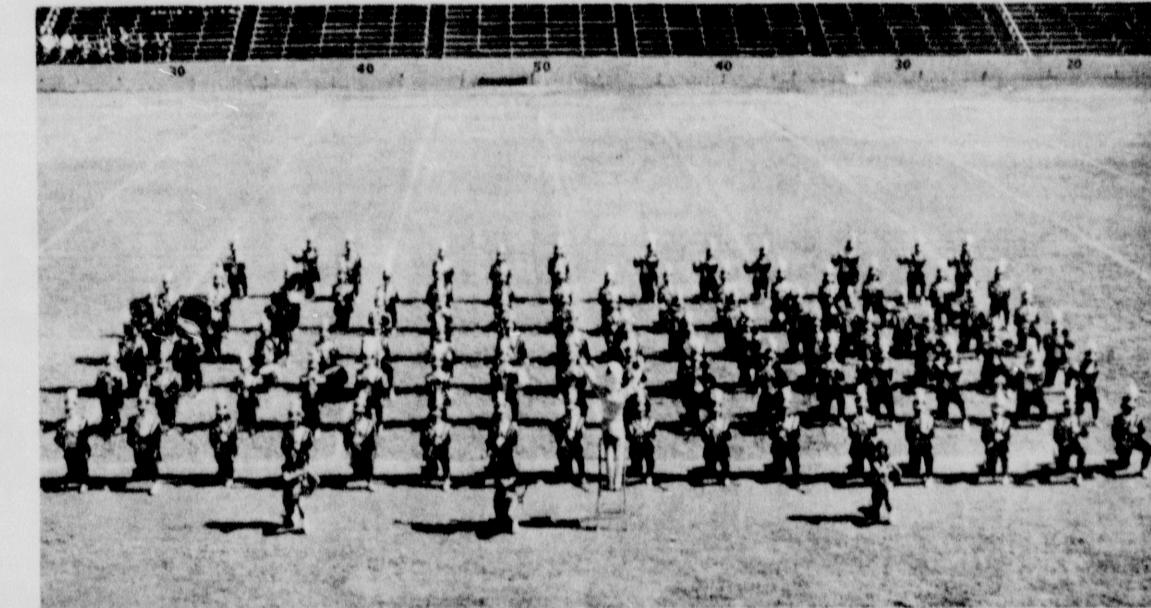

Twelve Hamlin High School seniors will be playing their final football game for the green and white here Friday night when they host the Merkel Badgers. Merkel defeated Anson 17-6 last week while the Pipers were defeated by Stamford, 32-14.

Because of a misunderstanding of a new league rule, the Haskell Indians find themselves in a tie with Rotan for a title spot with both teams going into the final game with 3-1 district marks. Haskell edged out Rotan last week, 18-14, for the apparent championship only to

find that they played an ineligible player earlier in the season against Hamlin.

If both Haskell and Rotan win Friday, with Haskell playing Stamford and Rotan meeting Anson, the Indians will advance into the play-offs because of their win over Rotan. But if Rotan wins and Haskell loses then Rotan will be the district champion and will advance into the play-offs.

Merkel will be carrying a 4-5 season record into the game here Friday night and own a 2-2 district record.

BAND RECEIVES DIVISION I—Marching before judges in Sweetwater last Wednesday, the Hamlin High School Band received a Division I rating on their precision performance. The committee is urging each Hamlin merchant to have his Christmas decorations up for this date.

# Calhoun Gives Literary Program

State Representative Frank Calhoun, recently elected to his third term in the Texas Legislature, spoke to the Woman's Literary Club Friday afternoon on the accomplishments of the past legislative session with regard to education.

He said the 61st Legislature had been labeled as the education session and more was done for education in that session than in any other.

In the field of public school education, three goals were set for the session, he said. First, to recodify existing school laws, raise teachers' pay to at least come up to the level of other states, and third, to enact some of the suggestions outlined in the report of the governor's committee on education.

In higher education four new state universities and four new junior colleges were created but not yet funded. Also created were two nursing schools and three medical schools.

Late in the session, he noted, a House Bill was introduced and passed with an educational approach to drugs and drug abuse to be implemented in the fifth through twelfth grades. "The solution to the drug problem," he said, "is education. Teenagers are smart. They are smart enough to leave it alone, if you tell them like it is. Tell them the truth." He did not recommend more narcotic agents, but emphasized, "Don't wait to catch them — stop them."

Rep. Calhoun was introduced by Mrs. R. D. Wade, program chairman.

## Joy Culwell Gives B&PW Program

Joy Culwell of Anson, guest speaker for the Tuesday evening dinner meeting of the Hamlin Business and Professional Women's Club, kept the members and their guests entertained with her "fat lady jokes" and personal experiences.

Mrs. Culwell, writer of a book to be published under the title of "Nobody Wears a Size 52," kept her audience laughing with humorous stories centered around her philosophy. "It is better to be rich and healthy than to be poor and sick."

Her grandmother taught her this, and she said, "I grew up thinking we were rich, did not know until I was grown that we were not."

She cast herself as an expert on losing weight. "Since," she said, "I have lost 8,000 pounds."

In a more serious vein, she said, "If life hands you a lemon, you can do one of two things — eat it as it is and make a face or add a little sweetening and make a lemonade."

She climaxed her talk with a song, "Accentuate the Positive," which she noted is her philosophy of life.

The meeting was held in

the Fellowship Hall of First Baptist Church. Mrs. Earl Brown, president, presided.

Mrs. O. G. Harvey and Mrs. Mac Reid were hostesses. Mrs. Harvey introduced the speaker.

## Pipers Fall to Stamford Bulldogs Friday, 32-14

With both teams seeking their first win of the season the Pied Pipers lost to the Stamford Bulldogs Friday night, 32-14. Both teams moved the ball up and down the field consistently but Stamford managed to get across the goal line more times than did the Pipers.

Team speed seemed to be the difference as the Bulldogs picked up most of their yardage on long gainers while the Pipers were moving the ball the hard way — a few yards at a time. With the Pipers picking up 20 first downs to the Bulldogs 18, they ran 78 plays to Stamford's 56.

The Pipers took the opening kickoff and drove down to the Stamford 23 before losing the ball on a fumble. The Bulldogs drove back up the field to the Hamlin six before the same fate befell them.

After an exchange of punts the Pipers fumbled again with Stamford taking over on the Hamlin 24. Stamford scored on first down with their fullback Bingo Boling going the 24 yards.

The Pipers came back following the kickoff and moved to the Stamford 12 before running out of downs. Ricky Rodgers recovered a Bulldog fumble on the 24 with Quarterback Duane Stewart passing to Daily Ponder for the 24 yards and the tally. After a Bulldog penalty Fullback Barry McDonald carried in for the two points.

Stamford came back following the kickoff to drive 63 yards in three plays to score again.

Action during the remainder of the second period was confined to mid field until the waning seconds when the Pipers took over at the Stamford 12. With only seconds left on the clock Stewart tried a field goal only to have it blocked. The two teams exchanged

touchdowns to open up the second half with Stamford driving 84 yards in six plays and Hamlin going 59 yards in nine plays. The Piper score came on a 26 yard pass from Stewart to Charles Sellers on a fourth and seven situation.

Speedster Matt Selmon scored again for the Bulldogs late in the third period when he broke loose for a 54-yard gallop.

The Pipers came back in range for another touchdown try mid-way in the fourth period when they drove to the Stamford four only to have the play called back because of a penalty. Another fourth down try failed to make the yardage needed and the Bulldogs took over on their 15.

Eleven plays later the Bulldogs put another six points on the scoreboard to put the game out of reach for the Pipers.

Taking the kickoff at their own 39, the Pipers drove down to the Bulldog 11 before time ran out on them.

McDonald was the night's leading ground gainer with 155 yards in 29 carries.

Mr. and Mrs. Monroe Tabb went to Coahoma for the football game between Coahoma and McCamey Friday. Their grandson, Bob Tabb, is tight end on the McCamey team. McCamey won 51-50. The Tabb's son, Monroe Ericson Tabb, and family returned to Hamlin to visit the Tabbs and Mrs. Tabb's parents, Mr. and Mrs. J. P. Bowman.

Wrinkles  
are a vicious cycle.

In some dryers the heat that dries your clothes also bakes wrinkles into permanent press.

But you can buy a new gas dryer with a permanent press cool-down cycle that turns off

the heat and cools off your clothes.

That means modern gas dryers won't add wrinkles to your wash and extra ironing to your work load. Because they have a cycle that keeps wrinkles from becoming vicious.

By MRS. R. M. SABB

Mr. and Mrs. Harold Johnson and sons of Duncanville visited with her parents over the weekend. Mr. and Mrs. Woodrow Lawlis.

Mr. and Mrs. Jim Lanning drove to Arkansas last week and enjoyed a visit with his uncle. They report that everything is pretty there at this time.

Mr. and Mrs. Buford Brown returned home last week after spending several days visiting in Harlingen with their son's family, the Billy Browns then on to Houston for a couple of days with her brother, Alvin Woodson, then on to Arkansas to visit with Mr. Brown's brother, the Frank Browns. They also report a very nice trip.

Mrs. Serena Martin of Elsia spent some time here with her sister, Maggie Wilder and with the Guy Kemps in Roby.

Milton Montgomery was very lucky last week when he was in a wreck that damaged his car and the pickup that was hit quite a bit. Luckily there weren't any serious injuries to either party. They will be sore and bruised for some weeks. This writer speaks from experience.

Mrs. Carra Perkins ac-

companied her son-in-law, Morris Rocquemore, to Irving this last week for a two week visit.

Kelly Nazworth of Roby and Melissa Hardwick of Tarleton State College spent the weekend in the Hardwick home.

The John Tankers family drove out from Ft. Worth and took Delia Beard back with them. She had been here visiting for a couple of weeks.

Mrs. Alfred Douglass tells me that their daughter Debbie has been awarded the D. A. R. Scholarship. She attends the Roby High School as a senior this year.

## THE FAMILY LAWYER

### Radar Vs. Motorist

Citizen Haines, given a ticket for speeding, determined to fight his case in court. At the hearing, officers relied on radar evidence to prove the charge against him. According to radar, Haines had indeed been travelling well over the speed limit.

But the police overlooked one thing. They failed to produce evidence that their radar equipment was in good working order on the day Haines was arrested. Result: he won an acquittal.

This case illustrates how the law, while accepting the benefits of technical progress, is also concerned with fair play for the individual. Almost everywhere, in

traffic cases, courts will insist on evidence that the radar equipment was working properly when it was put to use.

Today it is standard practice for such equipment to be checked regularly. Usually this is done by tuning forks or by clocked road tests. Even so, some motorists, still not convinced, have challenged the entire principle of radar, calling it too experimental to be trusted in the courtroom.

In an earlier day, the law too was skeptical about radar as a scientific principle. But now that skepticism has largely disappeared. As one judge put it:

"X-rays, electrocardiograms, time by watches, identity by fingerprinting, and ballistic evidence are freely accepted in our courts for their general reliability, without the necessity of expert testimony as to the scientific principles underlying them. The use of radar for speed detection may now be said to fall in this category."

In one case an arrested motorist, flagged down by radar, tried a different tack. He claimed he was the victim of an illegal "speed trap." But the evidence showed:

1) that the vehicle containing

the radar equipment was plainly marked as a police car; and

2) that the officers manning it were dressed in their regular uniforms.

Unable to see any "trap" in this situation, the court ordered the motorist to pay his fine. The judge felt that a speeder could not complain merely because the police had found a new and better way to catch him.
